[www.epa.gov/nerl](http://www.epa.gov/nerl)

Just following up to say thanks to all for working with us on these important issues.

Our current focus is on Pavillion. Alice and Linda will be our leads.

As Jennifer indicated, we will also need to look at the case study data for rounds 1 and 2. We are currently working with R3 and will want to look at the Dimock, PA data as well.

Stay tuned and thanks so much again!  
 Cindy

**Subject:** Pavillion presentation and beyond

As you saw this wkend, we are to put together a presentation similar to what USGS developed that explains the full story from the beginning and compares our findings w USGS - we are well on our way but now need to pull this together. Once again, team effort!

Can I ask that you both work w Alice on the data analysis and pull in some extra hands as needed to work thru it - Brian, maybe Patrick can help do some rpd's etc; Linda, can you contact Tom B and Larry W about Larry's statistical help.

draft presentation due Thursday - hope to know more later today or tomorrow on timing for briefing w the Bob's - heads up Linda there's a chance we might need to have you join Ramona this Fri w Bob's mtg

now for the beyond part

after Pavillion, need to look at Dimmock data and DW case study data that are to be posted mid Dec. We need to make sure we know what the data say and can explain it. So the next month will be a full one.

Linda, let's talk too about our Dec 3 wrkshop on exposure. Will call you around lunch time tomorrow
